

PHILIP MORRIS U.S.A.

INTEROFFICE CORRESPONDENCE
120 PARK AVENUE, NEW YORK, N.Y. 10017

TO: DISTRIBUTION
FROM: Ellen Merlo
SUBJECT: ELAN Test

DATE: January 27, 1988

As you know, the Elan test has now been postponed at least until May 31. As a result, we would like to put a hold on the production of any materials intended for the launch. If and when these materials need to be reactivated, Herb Foster will give you specific instructions.

Based on the May 31 launch however, please follow up with Herb as production dates approach to get his direction. Even if purchase requisitions have been signed, all projects are to be put on hold.
